## SUMMARY

Full Stack Developer with internship experience building responsive, database-driven web and mobile applications across the React, React Native, Django, PHP, and PostgreSQL stack. Skilled in front-end and back-end development, REST API design, authentication, and CRUD operations, with hands-on experience deploying to Microsoft Azure using Azure CLI and Azure DevOps CI/CD pipelines. Seeking a Full Stack Developer role to build reliable, scalable web and mobile applications.

## EDUCATION

**SRM Institute of Science and Technology, Ramapuram** 2021 – 2025  
*B.Tech, Computer Science and Engineering (Cyber Security)* CGPA: 7.75 | Chennai, India

## EXPERIENCE

**Flexzo — Trainee, Full Stack Developer** Apr 2026 – Present  
*Chennai, India*

- Building full-stack web and mobile applications, including an HRMS website, an HRMS mobile app, and a job portal app.
- Developing web and mobile front-ends using React and React Native, with back-end services and REST APIs built in Django and PostgreSQL.
- Implementing database-driven modules for authentication, CRUD operations, and records management across all three applications.
- Deploying and managing applications on Microsoft Azure using Azure CLI and Azure DevOps CI/CD pipelines.
- Collaborating with the development team on feature delivery and assigned tasks within project timelines.

**JRV Macte Healthcare Management Services Pvt. Ltd. — Full Stack Developer Intern** Apr 2025 – Sep 2025  
*Chennai, India*

- Developed and maintained a web-based healthcare management system using HTML, CSS, JavaScript, PHP, and MySQL.
- Designed and implemented database-driven features including user authentication, CRUD operations, and record-management modules.
- Optimized backend logic and SQL queries to improve application response time and reliability.
- Built responsive user interfaces with Bootstrap for consistent cross-device compatibility.

## PROJECTS

**Healthcare Management Web Application** HTML, CSS, Bootstrap, JavaScript, PHP, MySQL  

- Built a full-stack web application with database-driven modules for managing healthcare records and transactions.
- Designed a relational MySQL schema and implemented data validation, authentication, and CRUD workflows.
- Improved interface responsiveness and usability with Bootstrap and modular front-end components.

**Student Stack — Social Media Platform** HTML, React JS | Aug 2023 – Nov 2023  

- Developed a college-focused social media web application as part of a 3-member team.
- Built the UI structure, user profile features, and core interactive components using React.
- Implemented post and interaction features to support student engagement on the platform.
